

2024 OVERVIEW & PRODUCT SPECS

BELLFIRE SHIELDS

LEVEL IIIA + III BALLISTIC PROTECTION

BELLFIRE SHIELDS

LEVEL IIIA + III BALLISTIC SHIELDS

HighCom Armor’s line of Bellfire Shields, provide police and military personnel with advanced multi-hit protection from Level IIIA or Level III threats. Our shields are independently tested through an NVLAP accredited NIJ approved laboratory to meet or exceed ballistic resistance as specified under NIJ Standard 0108.01.

As one of the only USA Shield Manufacturers, we handcraft every aspect in-house for maximum quality assurance and partner with suppliers such as DuPont, DSM, Teijin, Barrday, Honeywell to ensure the highest quality materials are used in the construction of our shields. Currently deployed with law enforcement and military agencies worldwide our Bellfire Shields have been battle-tested in the harshest of conditions.

DESIGN & DEVELOPMENT OPTIONS

In addition to our line of Bellfire Shields, we also offer custom shield solutions and shapes. Shields are available with and without a viewport and can be configured with multiple handle and LED light options including Elzetta and Foxfury solutions. Contact our sales team for more information about available cuts and custom build solutions.

BELLFIRE SHIELDS

TESTING STANDARDS

Bellfire Shields are rigorously tested according to NIJ Standard 0108.01 threats by NIJ accredited laboratory. We also perform special threat testing both internally at our in-house ballistic lab and through an NVLAP accredited NIJ approved laboratory. We do this to ensure we are producing the most reliable and toughest shields on the market. Our adherence to these high standards of quality is proven by a flawless track record, with well over a million pieces of armor deployed worldwide, HighCom Armor has never had a failure, a penetration, or a recall of our armor. We hold ourselves to the highest standards and testing protocols because the lives we stand to protect depend upon it.

STANDARD CONFIGURATION C-HANDLE,
NECK STRAP, MOLDED RUBBER STRAP

The TITAN III™ is a lightweight, high-performing, and multi-hit level III+ rifle shield proven to reduce operator fatigue. Up to 30% lighter than competitive models, the TITAN is engineered from ultra-light UHMWPE and has been independently tested by an NVLAP accredited NIJ approved laboratory to NIJ Standard 0108.01. The TITAN's slim profile ensures easy maneuverability when deployed in the field. The TITAN comes standard with C-Handle, 2.5"x8.5" or 4"x10" ballistic viewport, shoulder strap and carry bag. The TITAN is available in 20"x30" and 20"x34" threat level III, with tactical flat cut or curved versions. Optional handle and LED light combinations are available as an upgrade. The TITAN is also available without a viewport for level III+ rifle protection as light as 13.3 pounds!

SPECIFICATIONS

- + **Protection:** Level III stand-alone against rifle rounds and lesser threats.
- + **NIJ Standard 0108.01 TESTED:** This product has been independently tested by an NVLAP accredited NIJ approved laboratory to meet or exceed ballistic resistance as specified under NIJ Standard 0108.01
- + **Material:** UHMWPE based material
- + **Exterior Cover:** Polyurea with Rhino Extreme™ 1150Fr Anti Spall Coated System
- + **Ballistic Viewport (Optional):** 2.5" x 8.5", 4" x 10"
- + **Handle:** Shield comes standard with HighCom C-Handle which is ambidextrous. Multiple handle upgrades available
- + **Multi-hit capability** NIJ 0108.01
- + **Color:** Black with transparent viewport
- + **Straps and bag:** Quick release neck strap, molded rubber strap, and shield carrying bag
- + **Optional LED light:** Multiple upgrades offered for LED light platforms, please note shield does not come standard with a mounted light
- + **Warranty:** 5 years on all ballistic material excluding exterior cover and 1 year on exterior cover material and workmanship

BELLFIRE TDS

STEEL TACTICAL DEPLOYMENT SHIELD LEVEL III+

The Tactical Deployment Shield was engineered to provide an economical option for level III+ protection to rifle threats. The TDS III+ defeats higher special threats like M855 (green tip) compared to most other level III shields deployed today and is budget friendly. The TDS III+ is easy to stow, quick to deploy, and is a great option for law enforcement and school systems. The TDS III+ is available in three sizes.

BELLFIRE CIRS

CRITICAL INCIDENT RESPONSE SHIELD LEVEL III+

The Critical Incident Response Shield or CIRS™ is a multi-hit level III+ rifle shield designed to be mounted on a wall, making it easily accessible during an active shooter situation. The shield's Rifle Special Threats validation ensures that it provides comprehensive protection against a wide range of ballistic threats, offering enhanced peace of mind. With a thickness of only 0.2" or 5mm, our shield maintains a slim profile, ensuring ease of use and maneuverability without compromising protection. The CIRS™ comes standard with C-Handles. The exterior is finished in a polyurethane enamel for a professional look. Available in Red, Blue and Black options to suit individual preferences.

BELLFIRE HANDLES

C HANDLE + AMBIDEXTROUS HANDLE

BELLFIRE C HANDLE

The Bellfire C shield handle is our standard handle for all hard armor shields. The C handle provides operators with a comfortable and ambidextrous grip during tactical operations.

- + Standard handle for Bellfire B, LTS, and MTS
- + Made in USA
- + 2-year warranty

BELLFIRE AMBIDEXTROUS HANDLE

The Bellfire Ambidextrous shield handle is an optional upgrade for our hard armor shield range. The Ambidextrous handle's shape and ergonomic design provides reliable control and comfortable grip allowing for longer use without fatigue.

- + Padded for an exceptional grip in all conditions
- + Made in USA
- + 2-year warranty

ELZETTA LIGHT + HANDLES

SHIELD LIGHTS & HANDLES

HORIZONTAL HANDLE

SHIELD LIGHT

TRIDEXTRIOUS HANDLE

SPECIFICATIONS

Elzetta Shield Lights bring a new level of quality and performance to the tactical protection market. The basic Elzetta Shield Light includes a horizontal handle with an integrated solid-state tape switch while the innovative TriDextrous™ version provides three unique gripping surfaces with light-activating switches in each location. Both models deliver 1,000 lumens of neutral-tint white light through two solid-acrylic optical flood lenses for a wall-of-light that uniformly illuminates an entire room. All electronics are fully potted for extreme durability with redundant circuitry for the two light sources to ensure continued operation should one source be damaged. A strobe feature is optional. No soldering or wire-routing is required for installation and comes with a five-year limited warranty.

- + Made in USA with American materials, tooling, and labor
- + CREE LED's produce 1000 lumens of light for over 2.5 hours without dimming
- + Wide uniform beam pattern enhances situational awareness and threat assessment
- + Optional strobe light feature designed to disorient adversaries by producing high frequency light flashes
- + Solid mounting via steel fasteners eliminates adhesives and threat of secondary projectiles
- + 5-Year warranty
- + Solid-state switch technology guarantees maximum reliability
- + Simple user interface is factory pre-programmed for momentary and constant-on operation
- + Complete redundancy ensures system operability even if one of two LED lights is destroyed
- + All wiring concealed inside the system to eliminate snag hazards
- + Molded-in textured surfaces provide exceptional grip in all conditions
- + Solid-acrylic optical lenses (no reflectors) provide extreme durability and superior beam quality
- + Soft edge beam gradually fades into environment to reduce tunnel-vision
- + Uses five (5) CR123 batteries
- + Neutral-tint light renders colors accurately similar to sunlight without artificial blue color
- + Fully-potted electronics lock circuit components in place for extreme durability
- + Battery cap easily disables system for storage and transport
- + Battery cap retained with integral lanyard to avoid loss and speed battery changes
- + All components sealed to provide a water-resistant all weather system
- + TriDextrous models may be carried in three positions and have three independent switches to control functionality in any posit

FOXFURY B70

TAKER B70 SHIELD LIGHT & HANDLE

SPECIFICATIONS

The FoxFury Taker B70 is an integrated 1200 lumen light with handle for OEM ballistic shield manufacturers. This strobe-capable shield light provides tactical officers with panoramic lighting and immediate situation assessment to see and respond faster. The Taker B70 comes with two Power / Mode switches, which allows users to activate the light and toggle between modes with either hand. An optional single pressure switch (included) can also be used to activate the light and change modes. This light has dual settings: On/Off and Tactical (3 modes: Momentary, Continuous On, and disorienting Turbo-Strobe™). Two rows of LEDs operate on different circuits allowing a single row of LEDs to continue functioning in the event the other row becomes damaged. Drilling holes into new OEM shields allows the Taker B70 to mount securely.

- + The powerful B70 utilizes CREE LED technology and is powered by CR123 batteries
- + The ultra-durable B70 is waterproof, flame resistant, and designed for use in anti-riot situations along with dynamic and deliberate entries by SWAT, military special operations, and law enforcement around the globe
- + This integrated shield lighting and handle system requires holes through the shield, at specific distances

FOXFURY B50

TAKER B50 SHIELD LIGHT

SPECIFICATIONS

FoxFury Taker B50 Shield Light Single Switch with Nylon Guard is a powerful, retrofittable LED shield light for tactical shields.

- + Powerful, retrofittable LED shield light for tactical shields: single switch operation
- + Compact, retrofittable LED shield light with kill switch for law enforcement use
- + It uses CREE LEDs to deliver 600 lumens of panoramic light for immediate situation assessment
- + Multiple modes (including a varying frequency disorienting strobe) help provide law enforcement with a tactical advantage in the field
- + Can also be programmed to be on / off only, modes change via a single pressure switch
- + This durable tactical shield light mounts via industrial VELCRO to ballistic shields

FOXFURY B30

TAKER B30 SHIELD LIGHT

SPECIFICATIONS

FoxFury Taker B30 provides operators with a powerful 600 lumen LED external light attachment. This strobe-capable shield light attaches to the front of the shield to provide tactical officers with panoramic lighting and immediate situation assessment to see and respond faster. The ultra-durable B30 is waterproof, flame resistant, and designed for use in anti-riot situations along with dynamic and deliberate entries by SWAT, military special operations, and law enforcement around the globe.

- + Powerful 600 lumen LED external light attachment
- + Waterproof and flame resistant
- + Designed for use in anti-riot situations
- + Single pressure switch that activates the light and changes modes
- + Dual light settings: On/off and Tactical (3 modes: momentary, continuous on, and disorienting Turbo-Strobe™)
- + Kill switch: Allows the operator to lock out the light from unintentional activation
- + Taker B30 mounts to the front of ballistic shields via industrial strength reclosable fasteners (Velcro®), which means no drilling into the shield and no compromising shield ballistics
